

## POSTER LIST

Author	Title	Poster No.	
<b>Adreani, N.</b>	Telemetric Audio Radio-Transmitters: a Powerful Device for Studies in Vocal Communication between Group-Interacting Small Animals	<b>138</b>	Thursday/Friday
<b>Amaya, J.P.</b>	Development of vocalizations in a fossorial rodent ( <i>Ctenomys sp.</i> )	<b>101</b>	Thursday/Friday
<b>Anichini, M.</b>	Singing plasticity and signalling strategies in the bushcricket <i>Poecilimon ampliatus</i> ( <i>Orthoptera: Tettigoniidae</i> )	<b>32</b>	Monday/Tuesday
<b>Araya-Salas, M.</b>	Does vocal learning accelerate acoustic diversification? Evolution of contact calls in Neotropical parrots	<b>93</b>	Thursday/Friday
<b>Attia, J.</b>	Acoustic playbacks elicit more responses in dim light than in daylight conditions in the cichlid fish <i>Metriacroma zebra</i>	<b>159</b>	Thursday/Friday
<b>Aumann, H.</b>	The RF Microphone: A New Way of Monitoring Honey Bee Sounds	<b>126</b>	Thursday/Friday
<b>Baier, L.</b>	Breaking the waves: spatial frequency in bat biosonar	<b>15</b>	Monday/Tuesday
<b>Bakhturina, D.</b>	The structure, context and functions of duet displays in three auk species ( <i>Charadriiformes, Alcidae</i> )	<b>143</b>	Thursday/Friday
<b>Blum, C.</b>	Vocal Ontogeny in Common Ravens ( <i>Corvus corax</i> )	<b>109</b>	Thursday/Friday
<b>Bolaños Sittler, P.R.</b>	Quetzal Echoes in Mayan Temples	<b>155</b>	Thursday/Friday
<b>Boucaud, I.</b>	Does vocal communication at the nest during incubation signal female's hunger in great tits?	<b>73</b>	Monday/Tuesday
<b>Brazao Protazio, J.M.</b>	Mathematical-Statistical Methods Applied to Bioacoustics - A Case Study Applied to Zebra Finches ( <i>Taeniopygia guttata</i> )	<b>136</b>	Thursday/Friday
<b>Brumm, H.</b>	Traffic noise drowns out great tit alarm calls	<b>58</b>	Monday/Tuesday
<b>Budka, M.</b>	Duet singing behavior in Common Crane	<b>145</b>	Thursday/Friday
<b>Cardoso, G.S.</b>	Vocal performance of <i>Thamnophilidae</i> (Aves, Passeriformes) species in different biomes of South America	<b>97</b>	Thursday/Friday
<b>Chabrolles, L.</b>	Do personality and social status influence sounds production in <i>Metriacroma zebra</i>	<b>77</b>	Monday/Tuesday
<b>Chivers, B.</b>	Bilateral asymmetry in the distribution of sound pressure levels around a singing cricket	<b>39</b>	Monday/Tuesday
<b>Codarin, A.</b>	An inexpensive Arduino-based autonomous recording unit: open source tool for remote acoustic studies	<b>128</b>	Thursday/Friday
<b>Collier, C.</b>	Dwarf mongoose alarm calls: a complex system	<b>69</b>	Monday/Tuesday
<b>Coquereau, L.</b>	Acoustics as a potential tool to monitor variabilities under anthropogenic pressure in a marine biogenic habitat	<b>55</b>	Monday/Tuesday
<b>Crisostomo Valdoria, C.M.</b>	Early multimodal communication in the territorial Lusitanian toadfish	<b>26</b>	Monday/Tuesday
<b>Curé, C.</b>	An automatic acoustic recognition system for monitoring an endangered amphibian species, the common spadefoot <i>Pelobates fuscus</i>	<b>123</b>	Thursday/Friday
<b>Dadwal, D.</b>	Examination of Parental Investments in the Nest Defense and Anti-Predator Behavior of a Tropical Songbird, the Pied Bush chat	<b>30</b>	Monday/Tuesday
<b>Davis, J.</b>	Experimental assessment of distance-from-source effects on spectral classification of bird vocalizations recorded in natural environments	<b>110</b>	Thursday/Friday
<b>Diniz, P.</b>	Vocal response by social pairs to playbacks of solos and duets varies with the presence of juveniles in a Neotropical ovenbird	<b>61</b>	Monday/Tuesday

<b>Dorado Correa , A.</b>	Vocal plasticity in mallards: multiple signal changes in noise and the evolution of the Lombard effect in birds	<b>105</b>	Thursday/Friday
<b>Duarte, M.H.L.</b>	Mining noise affects acoustic communication by the rofous-collared sparrow ( <i>Zonotrichia capensis</i> ) in a tropical forest	<b>45</b>	Monday/Tuesday
<b>Eckenweber, M.</b>	Individual recognition in wild greater sac-winged bats ( <i>Saccopteryx bilineata</i> )	<b>160</b>	Thursday/Friday
<b>Emam, T.</b>	The Yorkshire Soundscape Project: a case study in soundscape comparison and composition	<b>53</b>	Monday/Tuesday
<b>Español Jimenez, S.</b>	First study of presence of humpback whales vocalizations in a feeding ground of the Southern Chile.	<b>23</b>	Monday/Tuesday
<b>Ey, E.</b>	New insights into spontaneous ultrasonic vocalisations in mice	<b>148</b>	Thursday/Friday
<b>Faragó, T.</b>	Non-linear phenomena in dog whines as potential indicators of separation anxiety	<b>71</b>	Monday/Tuesday
<b>Favaro, L.</b>	Acoustic cues to individuality and species in <i>Spheniscus</i> penguins: a source-filter theory approach	<b>3</b>	Monday/Tuesday
<b>Feng, N.</b>	The circadian vocal rhythm of a singing fish	<b>85</b>	Thursday/Friday
<b>Ferhat, A.T.</b>	Contexts of emission of ultrasonic vocalisations during social interactions in mice	<b>76</b>	Monday/Tuesday
<b>Florentin, J.</b>	Wildlife Presence in a Rural Soundscape near a Wind Turbine	<b>57</b>	Monday/Tuesday
<b>Florentin, J.</b>	Acoustic characterization of woodpecker drumming in view of European species identification	<b>111</b>	Thursday/Friday
<b>Frommolt, K.H.</b>	Information obtained from bioacoustics monitoring – lessons from systematic acoustic monitoring during the breeding season	<b>50</b>	Monday/Tuesday
<b>Garcia, M.</b>	Acoustic allometry in mammals: a comparative study of over 60 carnivore and primate species	<b>4</b>	Monday/Tuesday
<b>Gervaise, C.</b>	3D imagery of the marine biophony with compact sensor array	<b>122</b>	Thursday/Friday
<b>Gessinger, G.</b>	Nasal and oral echolocation call emission in phyllostomid bats	<b>9</b>	Monday/Tuesday
<b>Gifford, T.</b>	Vocalisation Characteristics of the Soniferous Catfish Species <i>Neoarius graeffei</i>	<b>139</b>	Thursday/Friday
<b>Gill, L.</b>	Who ya gonna call? Individual recognition in jackdaw ( <i>Corvus monedula</i> ) contact calls	<b>79</b>	Monday/Tuesday
<b>Glotin, H.</b>	Scaled soundscape automatic annotation - evidences from the Sabiod EADM challenge	<b>118</b>	Thursday/Friday
<b>Goerlitz, H.R.</b>	Linking lab physiology to behaviour in the wild: the multi-species predator-prey interaction of bats and moths	<b>41</b>	Monday/Tuesday
<b>Gogala, M.</b>	Differences in song parameters and taxonomy of singing cicadas ( <i>Hemiptera, Cicadidae</i> )	<b>34</b>	Monday/Tuesday
<b>Goncharova, M.</b>	Acoustic call variables indicate hunger level in Siberian crane chicks ( <i>Grus leucogeranus, Gruidae</i> )	<b>70</b>	Monday/Tuesday
<b>Gonzalez-Terrazas, T.P.</b>	The sound of cactus: a flower-visiting bat's perspective	<b>156</b>	Thursday/Friday
<b>Grison, M.</b>	Spatial and Temporal Dynamic in a Lek of a Tropical Bird: The <i>Lipaugus Vociferans</i>	<b>102</b>	Thursday/Friday
<b>Hallerberg, S.</b>	A bag-of-coefficients approach towards call categorization	<b>132</b>	Thursday/Friday
<b>Hoebel, G.</b>	Does Audiovisual Integration Change Leading Call Preferences in Treefrogs?	<b>16</b>	Monday/Tuesday
<b>Hoier, S.</b>	Context specific ultrasonic vocalizations in wild female mice ( <i>Mus musculus</i> )	<b>144</b>	Thursday/Friday
<b>Honaiser Rostirolla, T.</b>	Model reliability for automated bioacoustic recognition through Arbimon	<b>133</b>	Thursday/Friday
<b>Hrouzková, E.</b>	Vibrational communication of blind mole rat ( <i>Spalax ehrenbergi</i> ) superspecies	<b>27</b>	Monday/Tuesday
<b>Hügel, T.</b>	Behavioural audiograms to study anti-predator adaptation in eared moths	<b>40</b>	Monday/Tuesday
<b>Hügel, T.</b>	Acoustic and ecological similarity: Eavesdropping on heterospecific echolocation calls in <i>Myotis</i> bats.	<b>157</b>	Thursday/Friday

<b>Ilina, I.</b>	Comparative analysis of the song variation across the ranges of Chiffchaff ( <i>Phylloscopus collybita</i> ) and Willow Warbler ( <i>Ph. trochilus</i> )	<b>103</b>	Thursday/Friday
<b>Jakubowska, A.</b>	Song duration mediates response of territory owner during simulated intrusion in a songbird species with small song repertoire	<b>42</b>	Monday/Tuesday
<b>Jansen, M.</b>	Individuality in face of plasticity: signal variation during sustained calling in frogs	<b>83</b>	Thursday/Friday
<b>Jayasena, N.</b>	Interspecific communication for predator awareness between yellow-billed babblers and common palm squirrels	<b>62</b>	Monday/Tuesday
<b>Kerchev, I.</b>	Investigation of acoustical communication and behavior of invasive fir bark beetle <i>Polygraphus proximus</i> Blandford	<b>35</b>	Monday/Tuesday
<b>King, S.E.</b>	Sound-induced hearing loss and recovery in the axolotl ( <i>Ambystoma mexicanum</i> )	<b>6</b>	Monday/Tuesday
<b>Kipper, S.</b>	Song features are predictive for male paternal effort in Common nightingales ( <i>Luscinia megarhynchos</i> ).	<b>18</b>	Monday/Tuesday
<b>Klenova, A.</b>	Hunger advertising by begging calls in three auk species ( <i>Alcidae, Charadriiformes</i> )	<b>72</b>	Monday/Tuesday
<b>Klenschi, E.</b>	Technological advances in 3D micro-scanning laser Doppler vibrometry: investigation of the locust ear	<b>38</b>	Monday/Tuesday
<b>Kriesell, H.J.</b>	Communication in colonial long-lived seabirds. Relative contribution of acoustic and visual signalling in sexual selection in penguins.	<b>87</b>	Thursday/Friday
<b>Kruger, D.J.D.</b>	The extraordinary vocal characteristics of the South African Common River Frog ( <i>Amietia queckettii</i> )	<b>21</b>	Monday/Tuesday
<b>Kugler, K.</b>	Echo-acoustics flow guides flight in bats	<b>17</b>	Monday/Tuesday
<b>Lampe, H.M.</b>	Exploring the relationship between song characteristics of fathers and sons in pied flycatchers	<b>92</b>	Thursday/Friday
<b>Lankau, H.E.</b>	Developing Standards and Methods for Bioacoustic Data Collection and Processing in Alberta, Canada	<b>129</b>	Thursday/Friday
<b>Larsen, O.N.</b>	In-air and Underwater Hearing of the Cormorant studied with ABR	<b>7</b>	Monday/Tuesday
<b>Lattenkamp, E.Z.</b>	Do horseshoe bats complement their echolocation with listening for prey-generated sounds?	<b>104</b>	Thursday/Friday
<b>Laverde-R., O.</b>	Bird songs in the shelf: temporal patterns of songs and vocal output are lost in sound archives	<b>112</b>	Thursday/Friday
<b>Le Maguer, L.</b>	Song learning and cognitive abilities in zebra finches ( <i>Taeniopygia guttata</i> )	<b>95</b>	Thursday/Friday
<b>Leitner, S.</b>	Hatching late in the season requires flexibility in the timing of song learning	<b>90</b>	Thursday/Friday
<b>Lewanzik, D.</b>	Low-intensity echolocation plus intensity compensation – a means for barbastelle bats to remain undetected by eared moth	<b>158</b>	Thursday/Friday
<b>Linke, S.</b>	Real-time acoustic monitoring of freshwater ecosystems	<b>52</b>	Monday/Tuesday
<b>Lossent, J.</b>	Mapping marine biophony	<b>117</b>	Thursday/Friday
<b>Luís, A.R.</b>	Analyzing a graded acoustic repertoire: the use of discriminant analysis to classify burst-pulsed signals of bottlenose dolphins	<b>121</b>	Thursday/Friday
<b>Ma, S.</b>	Sensorimotor feedback maintains auditory objects formation	<b>10</b>	Monday/Tuesday
<b>Maciel, I.</b>	High incidence of non-linear phenomena in Antarctic <i>Phocidae</i>	<b>146</b>	Thursday/Friday
<b>Maeder, M.</b>	„Phyto-acoustics“: Acoustic Emissions of Plants	<b>44</b>	Monday/Tuesday
<b>Maigrot, A.L.</b>	Vocal expression of emotions in Przewalski horses	<b>68</b>	Monday/Tuesday
<b>Manfrini, V.</b>	Acoustic monitoring of a pregnant bottlenose dolphin ( <i>Tursiops truncatus</i> ) under human care	<b>80</b>	Monday/Tuesday
<b>Marchenko, A.</b>	Ontogenesis of vocalization in diurnal bird of prey (Falconiformes)	<b>108</b>	Thursday/Friday

<b>Marfull, R.</b>	The effect of sibling competition on the acoustic component of begging behaviour in blue tits ( <i>Cyanistes caeruleus</i> ).	<b>91</b>	Thursday/Friday
<b>Martin, J.G.</b>	Differences in the vocal emissions of bottlenose dolphins during surface feeding and bottom foraging events	<b>78</b>	Monday/Tuesday
<b>Martinez-Alvarado, D.</b>	Does noise affect song activity of oscine and suboscine species between urban and rural areas?	<b>56</b>	Monday/Tuesday
<b>Martínez-Serena, A.</b>	Mexican Bat Acoustic Monitoring System (SIMMA)	<b>127</b>	Thursday/Friday
<b>Martins, J.</b>	Rhythms from the animal world in the practice of composers	<b>150</b>	Thursday/Friday
<b>Matrosova, V.</b>	What affects Alarm Call Structure in Speckled Ground Squirrels: Multifactor Analysis	<b>147</b>	Thursday/Friday
<b>Matsinos, Y.</b>	Vocalization attributes of specific song notes and distress calls (churring) between urban and rural great tits, <i>Parus Major</i> .	<b>54</b>	Monday/Tuesday
<b>Matsinos, Y.</b>	Defining Quietness in Urban Green Areas	<b>59</b>	Monday/Tuesday
<b>Matsinos, Y.</b>	Soundwalk as a Landscape Remodeling Driving Tool	<b>60</b>	Monday/Tuesday
<b>McLeod, L.</b>	Using emerging bioacoustic technologies to model for Yellow Rail occupancy.	<b>114</b>	Thursday/Friday
<b>Mélotte, G.</b>	Sound production in piranhas and relatives: comparisons between species	<b>1</b>	Monday/Tuesday
<b>Meyer, J.</b>	Speaking and singing with whistles around the world: speech and music in a simple narrow frequency band	<b>149</b>	Thursday/Friday
<b>Mishima, Y.</b>	PS1 call is determined as an affiliative contact call in captive belugas ( <i>Delphinapterus leucas</i> )	<b>75</b>	Monday/Tuesday
<b>Montealegre-Z, F.</b>	Song quality and sound-generator asymmetry in bushcrickets	<b>33</b>	Monday/Tuesday
<b>Montealegre-Z, F.</b>	Biophysics of a pronotal Helmholtz resonator enhancing sound radiation in a neotropical bushcricket	<b>37</b>	Monday/Tuesday
<b>Montes-Medina, A.C.</b>	Functional Diversity in the Vocal Repertoire of the Lilac-crowned Parrot	<b>63</b>	Monday/Tuesday
<b>Moskalenko, V.</b>	Song types are genetically determined in birds with the single song type	<b>96</b>	Thursday/Friday
<b>Motes Rodrigo, A.</b>	Testing the nutritional stress hypothesis and learning capacity in pied flycatchers.	<b>84</b>	Thursday/Friday
<b>Njoroge, A.W.</b>	Acoustic Characteristics of <i>Prostephanus truncatus</i> (Horn) ( <i>Coleoptera: Bostrichidae</i> ) and <i>Sitophilus zeamais</i> (Motschulsky) ( <i>Coleoptera: Curculionidae</i> )	<b>31</b>	Monday/Tuesday
<b>Nolan, H.</b>	Dingo communication	<b>24</b>	Monday/Tuesday
<b>Noriega Romero Vargas, M.F.</b>	Bigrams in Sequences of Pilot Whale Calls	<b>151</b>	Thursday/Friday
<b>Osiejuk, T.</b>	Soft song use in the presence of predator and during rival's intrusions in the Ortolan Bunting ( <i>Emberiza hortulana</i> )	<b>65</b>	Monday/Tuesday
<b>Oswald, J.</b>	Geographic variation in delphinid whistles - implications for classifier development	<b>124</b>	Thursday/Friday
<b>Padilla de la Torre, M.</b>	Vocal expression of emotion in cattle	<b>67</b>	Monday/Tuesday
<b>Palhares, C.O.M.</b>	Description of the vocalization of <i>Melanopareia torquata bitorquata</i> (D'orbigny & Lafresnaye, 1837) in Mato Grosso, Brazil	<b>154</b>	Thursday/Friday
<b>Parks, S.</b>	Description of the ontogeny of acoustic communication behavior of North Atlantic right whales	<b>88</b>	Thursday/Friday
<b>Penna, M.</b>	Communication amidst biotic and abiotic interference in frogs of the austral temperate forest	<b>47</b>	Monday/Tuesday
<b>Pereira Chaves, P.A.</b>	Development of the inner ear morphology and auditory sensitivity for social acoustic communication in the Lusitanian toadfish	<b>2</b>	Monday/Tuesday
<b>Petruskova, T.</b>	Song convergence and aggressive interactions of two closely related songbird species in their contact zone: the case of Nightingales ( <i>Luscinia spp.</i> )	<b>28</b>	Monday/Tuesday

<b>Popova, D.</b>	Ontogenesis of vocalization in several owl species (Strigiformes)	<b>99</b>	Thursday/Friday
<b>Porteš, M.</b>	Who is who? Acoustic monitoring of migratory passerines with complex and simple song as a tool for individual recognition	<b>13</b>	Monday/Tuesday
<b>Prior, N.</b>	Acoustic behavior in paired, breeding and non-breeding condition zebra finches	<b>140</b>	Thursday/Friday
<b>Ptacek, L.</b>	Improving the Automatic Bird Individual Identification Method by Parametrization Data Merging	<b>137</b>	Thursday/Friday
<b>Quispe, R.</b>	Seasonal and Daily Timing of Dawn Chorus in an Equatorial Songbird	<b>22</b>	Monday/Tuesday
<b>Riebel, K.</b>	How 'crystallised' is crystallised birdsong? Changes in singing over time in adult male zebra finches	<b>100</b>	Thursday/Friday
<b>Rivera-Gutierrez, H.F.</b>	Does song-learning play a role in acoustic adaptation to urban environments?	<b>82</b>	Thursday/Friday
<b>Romero-Vivas, E.</b>	Spectrogram differences approach for extracting fundamental frequency variation of dolphin whistles	<b>135</b>	Thursday/Friday
<b>Rosa, F.</b>	Looking for number of degrees of freedom at Orcinus orca calls for the design of a classifier	<b>115</b>	Thursday/Friday
<b>Ruiz, T.</b>	Software-aided identification of Neotropical bat calls: an active learning approach	<b>120</b>	Thursday/Friday
<b>Sarria-S., F.A.</b>	Loud extreme ultrasonic frequencies produced by a small generator	<b>131</b>	Thursday/Friday
<b>Schneiderová, I.</b>	Species determination of captive lesser galagos ( <i>Galago spp.</i> ) integrating molecular-genetic and bioacoustic data	<b>130</b>	Thursday/Friday
<b>Schneiderová, I.</b>	Differences in alarm calls of juvenile and adult European ground squirrels: findings from a semi-natural enclosure	<b>64</b>	Monday/Tuesday
<b>Schoeppler, D.</b>	Non-paradoxical Doppler shift compensation in <i>Rhinolophus paradoxolophus</i>	<b>12</b>	Monday/Tuesday
<b>Schulz-Mirbach T.</b>	Diversity in swim bladder morphology affects hearing in cichlid fishes	<b>8</b>	Monday/Tuesday
<b>Seltmann, S.</b>	Influence of sleep on song-related neuronal activity in RA - what role does Melatonin play?	<b>5</b>	Monday/Tuesday
<b>Sibiryakova, O.</b>	Acoustic variation in Siberian wapiti <i>Cervus elaphus sibiricus</i> : effects of sex and age	<b>86</b>	Thursday/Friday
<b>Simon, R.</b>	Driverless vehicle guidance by using bio-inspired sonar reflectors	<b>119</b>	Thursday/Friday
<b>Singh, Y.</b>	Vocalization a passive indicator of developmental stages of dairy animals	<b>89</b>	Thursday/Friday
<b>Singh, Y.</b>	Bioacoustic sensing an authentic descriptor of individual's identity	<b>113</b>	Thursday/Friday
<b>Souriau, A.</b>	Asymmetrical song convergence in two hybridizing nightingales: The mystery of "doublespeaking" males	<b>107</b>	Thursday/Friday
<b>Sprau, P.</b>	Plasticity or consistency? Individual differences in territorial defence along urban gradients in Great tits ( <i>Parus major</i> )	<b>43</b>	Monday/Tuesday
<b>Stepien, A.E.</b>	Syllable-specific rules in the microstructure of birdsong	<b>152</b>	Thursday/Friday
<b>Stowell, D.</b>	From raw audio to songbird communication networks: fully automating the analysis	<b>116</b>	Thursday/Friday
<b>Sueur, J.</b>	Ecoacoustics: echoes from a new discipline	<b>36</b>	Monday/Tuesday
<b>Szymanski, P.</b>	Vocal communication behaviour as an indicator of changes in bird populations: a case study of farmland species	<b>51</b>	Monday/Tuesday
<b>Tanttu, J.T.</b>	Time-frequency analysis of the Marvellous Spatuletail ( <i>Loddigesia mirabilis</i> ) vocalizations	<b>25</b>	Monday/Tuesday
<b>Thomsen, H.</b>	Individual variation and vocal matching by imitation in peach-fronted conures ( <i>Aratinga aurea</i> )	<b>106</b>	Thursday/Friday
<b>Tipp, C.</b>	Archiving the Sounds on Life on Earth	<b>134</b>	Thursday/Friday

<b>Ueno, A.S.O.</b>	Barking in capybaras: more than just an alarm call	<b>74</b>	Monday/Tuesday
<b>Ulloa, J.S.</b>	Temporal and spatial dynamics of a tropical soundmark: the song of the Screaming piha <i>Lipaugus vociferans</i>	<b>20</b>	Monday/Tuesday
<b>v. Merten, S.</b>	The song of wild mice – acoustic divergence in natural populations of mice ( <i>Mus sp.</i> )	<b>153</b>	Thursday/Friday
<b>van Boheemen, J.S.</b>	Simple song doesn't mean low variability - individual variation in the Yellowhammer vocalization	<b>81</b>	Thursday/Friday
<b>Vellema, M.</b>	Prior singing experiences accelerate subsequent development of vocal skills	<b>98</b>	Thursday/Friday
<b>Villain, A.</b>	Behavioural changes in response to background noise sign the importance of intra-pair communication at the nest in a songbird.	<b>141</b>	Thursday/Friday
<b>Vokurkova, J.</b>	Seasonality in singing activity of bird communities along elevational gradient of Mount Cameroon	<b>29</b>	Monday/Tuesday
<b>Zagkle, E.</b>	To buzz or not to buzz? Situation-dependent behavioural flexibility in bat biosonar during object approach	<b>14</b>	Monday/Tuesday
<b>Zaytseva, A.</b>	Estimating discomfort in a fat-tailed gerbil by ultrasonic joint-calls	<b>66</b>	Monday/Tuesday
<b>Zollinger, S.A.</b>	Great tits stay on pitch even as vocal amplitudes and background noise levels increase	<b>11</b>	Monday/Tuesday
<b>Zsebők, S.</b>	What does the hierarchical analysis of quantitative and qualitative song traits tell us about signal design and reliability?	<b>19</b>	Monday/Tuesday
