

POSTER LIST

Author	Title	Poster No.	
Adreani, N.	Telemetric Audio Radio-Transmitters: a Powerful Device for Studies in Vocal Communication between Group-Interacting Small Animals	138	Thursday/Friday
Amaya, J.P.	Development of vocalizations in a fossorial rodent (<i>Ctenomys sp.</i>)	101	Thursday/Friday
Anichini, M.	Singing plasticity and signalling strategies in the bushcricket <i>Poecilimon ampliatus</i> (<i>Orthoptera: Tettigoniidae</i>)	32	Monday/Tuesday
Araya-Salas, M.	Does vocal learning accelerate acoustic diversification? Evolution of contact calls in Neotropical parrots	93	Thursday/Friday
Attia, J.	Acoustic playbacks elicit more responses in dim light than in daylight conditions in the cichlid fish <i>Metriacroma zebra</i>	159	Thursday/Friday
Aumann, H.	The RF Microphone: A New Way of Monitoring Honey Bee Sounds	126	Thursday/Friday
Baier, L.	Breaking the waves: spatial frequency in bat biosonar	15	Monday/Tuesday
Bakhturina, D.	The structure, context and functions of duet displays in three auk species (<i>Charadriiformes, Alcidae</i>)	143	Thursday/Friday
Blum, C.	Vocal Ontogeny in Common Ravens (<i>Corvus corax</i>)	109	Thursday/Friday
Bolaños Sittler, P.R.	Quetzal Echoes in Mayan Temples	155	Thursday/Friday
Boucaud, I.	Does vocal communication at the nest during incubation signal female's hunger in great tits?	73	Monday/Tuesday
Brazao Protazio, J.M.	Mathematical-Statistical Methods Applied to Bioacoustics - A Case Study Applied to Zebra Finches (<i>Taeniopygia guttata</i>)	136	Thursday/Friday
Brumm, H.	Traffic noise drowns out great tit alarm calls	58	Monday/Tuesday
Budka, M.	Duet singing behavior in Common Crane	145	Thursday/Friday
Cardoso, G.S.	Vocal performance of <i>Thamnophilidae</i> (Aves, Passeriformes) species in different biomes of South America	97	Thursday/Friday
Chabrolles, L.	Do personality and social status influence sounds production in <i>Metriacroma zebra</i>	77	Monday/Tuesday
Chivers, B.	Bilateral asymmetry in the distribution of sound pressure levels around a singing cricket	39	Monday/Tuesday
Codarin, A.	An inexpensive Arduino-based autonomous recording unit: open source tool for remote acoustic studies	128	Thursday/Friday
Collier, C.	Dwarf mongoose alarm calls: a complex system	69	Monday/Tuesday
Coquereau, L.	Acoustics as a potential tool to monitor variabilities under anthropogenic pressure in a marine biogenic habitat	55	Monday/Tuesday
Crisostomo Valdoria, C.M.	Early multimodal communication in the territorial Lusitanian toadfish	26	Monday/Tuesday
Curé, C.	An automatic acoustic recognition system for monitoring an endangered amphibian species, the common spadefoot <i>Pelobates fuscus</i>	123	Thursday/Friday
Dadwal, D.	Examination of Parental Investments in the Nest Defense and Anti-Predator Behavior of a Tropical Songbird, the Pied Bush chat	30	Monday/Tuesday
Davis, J.	Experimental assessment of distance-from-source effects on spectral classification of bird vocalizations recorded in natural environments	110	Thursday/Friday
Diniz, P.	Vocal response by social pairs to playbacks of solos and duets varies with the presence of juveniles in a Neotropical ovenbird	61	Monday/Tuesday

Dorado Correa , A.	Vocal plasticity in mallards: multiple signal changes in noise and the evolution of the Lombard effect in birds	105	Thursday/Friday
Duarte, M.H.L.	Mining noise affects acoustic communication by the rofous-collared sparrow (<i>Zonotrichia capensis</i>) in a tropical forest	45	Monday/Tuesday
Eckenweber, M.	Individual recognition in wild greater sac-winged bats (<i>Saccopteryx bilineata</i>)	160	Thursday/Friday
Emam, T.	The Yorkshire Soundscape Project: a case study in soundscape comparison and composition	53	Monday/Tuesday
Español Jimenez, S.	First study of presence of humpback whales vocalizations in a feeding ground of the Southern Chile.	23	Monday/Tuesday
Ey, E.	New insights into spontaneous ultrasonic vocalisations in mice	148	Thursday/Friday
Faragó, T.	Non-linear phenomena in dog whines as potential indicators of separation anxiety	71	Monday/Tuesday
Favaro, L.	Acoustic cues to individuality and species in <i>Spheniscus</i> penguins: a source-filter theory approach	3	Monday/Tuesday
Feng, N.	The circadian vocal rhythm of a singing fish	85	Thursday/Friday
Ferhat, A.T.	Contexts of emission of ultrasonic vocalisations during social interactions in mice	76	Monday/Tuesday
Florentin, J.	Wildlife Presence in a Rural Soundscape near a Wind Turbine	57	Monday/Tuesday
Florentin, J.	Acoustic characterization of woodpecker drumming in view of European species identification	111	Thursday/Friday
Frommolt, K.H.	Information obtained from bioacoustics monitoring – lessons from systematic acoustic monitoring during the breeding season	50	Monday/Tuesday
Garcia, M.	Acoustic allometry in mammals: a comparative study of over 60 carnivore and primate species	4	Monday/Tuesday
Gervaise, C.	3D imagery of the marine biophony with compact sensor array	122	Thursday/Friday
Gessinger, G.	Nasal and oral echolocation call emission in phyllostomid bats	9	Monday/Tuesday
Gifford, T.	Vocalisation Characteristics of the Soniferous Catfish Species <i>Neoarius graeffei</i>	139	Thursday/Friday
Gill, L.	Who ya gonna call? Individual recognition in jackdaw (<i>Corvus monedula</i>) contact calls	79	Monday/Tuesday
Glotin, H.	Scaled soundscape automatic annotation - evidences from the Sabiod EADM challenge	118	Thursday/Friday
Goerlitz, H.R.	Linking lab physiology to behaviour in the wild: the multi-species predator-prey interaction of bats and moths	41	Monday/Tuesday
Gogala, M.	Differences in song parameters and taxonomy of singing cicadas (<i>Hemiptera, Cicadidae</i>)	34	Monday/Tuesday
Goncharova, M.	Acoustic call variables indicate hunger level in Siberian crane chicks (<i>Grus leucogeranus, Gruidae</i>)	70	Monday/Tuesday
Gonzalez-Terrazas, T.P.	The sound of cactus: a flower-visiting bat's perspective	156	Thursday/Friday
Grison, M.	Spatial and Temporal Dynamic in a Lek of a Tropical Bird: The <i>Lipaugus Vociferans</i>	102	Thursday/Friday
Hallerberg, S.	A bag-of-coefficients approach towards call categorization	132	Thursday/Friday
Hoebel, G.	Does Audiovisual Integration Change Leading Call Preferences in Treefrogs?	16	Monday/Tuesday
Hoier, S.	Context specific ultrasonic vocalizations in wild female mice (<i>Mus musculus</i>)	144	Thursday/Friday
Honaiser Rostirolla, T.	Model reliability for automated bioacoustic recognition through Arbimon	133	Thursday/Friday
Hrouzková, E.	Vibrational communication of blind mole rat (<i>Spalax ehrenbergi</i>) superspecies	27	Monday/Tuesday
Hügel, T.	Behavioural audiograms to study anti-predator adaptation in eared moths	40	Monday/Tuesday
Hügel, T.	Acoustic and ecological similarity: Eavesdropping on heterospecific echolocation calls in <i>Myotis</i> bats.	157	Thursday/Friday

Ilina, I.	Comparative analysis of the song variation across the ranges of Chiffchaff (<i>Phylloscopus collybita</i>) and Willow Warbler (<i>Ph. trochilus</i>)	103	Thursday/Friday
Jakubowska, A.	Song duration mediates response of territory owner during simulated intrusion in a songbird species with small song repertoire	42	Monday/Tuesday
Jansen, M.	Individuality in face of plasticity: signal variation during sustained calling in frogs	83	Thursday/Friday
Jayasena, N.	Interspecific communication for predator awareness between yellow-billed babblers and common palm squirrels	62	Monday/Tuesday
Kerchev, I.	Investigation of acoustical communication and behavior of invasive fir bark beetle <i>Polygraphus proximus</i> Blandford	35	Monday/Tuesday
King, S.E.	Sound-induced hearing loss and recovery in the axolotl (<i>Ambystoma mexicanum</i>)	6	Monday/Tuesday
Kipper, S.	Song features are predictive for male paternal effort in Common nightingales (<i>Luscinia megarhynchos</i>).	18	Monday/Tuesday
Klenova, A.	Hunger advertising by begging calls in three auk species (<i>Alcidae, Charadriiformes</i>)	72	Monday/Tuesday
Klenschi, E.	Technological advances in 3D micro-scanning laser Doppler vibrometry: investigation of the locust ear	38	Monday/Tuesday
Kriesell, H.J.	Communication in colonial long-lived seabirds. Relative contribution of acoustic and visual signalling in sexual selection in penguins.	87	Thursday/Friday
Kruger, D.J.D.	The extraordinary vocal characteristics of the South African Common River Frog (<i>Amietia queckettii</i>)	21	Monday/Tuesday
Kugler, K.	Echo-acoustics flow guides flight in bats	17	Monday/Tuesday
Lampe, H.M.	Exploring the relationship between song characteristics of fathers and sons in pied flycatchers	92	Thursday/Friday
Lankau, H.E.	Developing Standards and Methods for Bioacoustic Data Collection and Processing in Alberta, Canada	129	Thursday/Friday
Larsen, O.N.	In-air and Underwater Hearing of the Cormorant studied with ABR	7	Monday/Tuesday
Lattenkamp, E.Z.	Do horseshoe bats complement their echolocation with listening for prey-generated sounds?	104	Thursday/Friday
Laverde-R., O.	Bird songs in the shelf: temporal patterns of songs and vocal output are lost in sound archives	112	Thursday/Friday
Le Maguer, L.	Song learning and cognitive abilities in zebra finches (<i>Taeniopygia guttata</i>)	95	Thursday/Friday
Leitner, S.	Hatching late in the season requires flexibility in the timing of song learning	90	Thursday/Friday
Lewanzik, D.	Low-intensity echolocation plus intensity compensation – a means for barbastelle bats to remain undetected by eared moth	158	Thursday/Friday
Linke, S.	Real-time acoustic monitoring of freshwater ecosystems	52	Monday/Tuesday
Lossent, J.	Mapping marine biophony	117	Thursday/Friday
Luís, A.R.	Analyzing a graded acoustic repertoire: the use of discriminant analysis to classify burst-pulsed signals of bottlenose dolphins	121	Thursday/Friday
Ma, S.	Sensorimotor feedback maintains auditory objects formation	10	Monday/Tuesday
Maciel, I.	High incidence of non-linear phenomena in Antarctic <i>Phocidae</i>	146	Thursday/Friday
Maeder, M.	„Phyto-acoustics“: Acoustic Emissions of Plants	44	Monday/Tuesday
Maigrot, A.L.	Vocal expression of emotions in Przewalski horses	68	Monday/Tuesday
Manfrini, V.	Acoustic monitoring of a pregnant bottlenose dolphin (<i>Tursiops truncatus</i>) under human care	80	Monday/Tuesday
Marchenko, A.	Ontogenesis of vocalization in diurnal bird of prey (Falconiformes)	108	Thursday/Friday

Marfull, R.	The effect of sibling competition on the acoustic component of begging behaviour in blue tits (<i>Cyanistes caeruleus</i>).	91	Thursday/Friday
Martin, J.G.	Differences in the vocal emissions of bottlenose dolphins during surface feeding and bottom foraging events	78	Monday/Tuesday
Martinez-Alvarado, D.	Does noise affect song activity of oscine and suboscine species between urban and rural areas?	56	Monday/Tuesday
Martínez-Serena, A.	Mexican Bat Acoustic Monitoring System (SIMMA)	127	Thursday/Friday
Martins, J.	Rhythms from the animal world in the practice of composers	150	Thursday/Friday
Matrosova, V.	What affects Alarm Call Structure in Speckled Ground Squirrels: Multifactor Analysis	147	Thursday/Friday
Matsinos, Y.	Vocalization attributes of specific song notes and distress calls (churring) between urban and rural great tits, <i>Parus Major</i> .	54	Monday/Tuesday
Matsinos, Y.	Defining Quietness in Urban Green Areas	59	Monday/Tuesday
Matsinos, Y.	Soundwalk as a Landscape Remodeling Driving Tool	60	Monday/Tuesday
McLeod, L.	Using emerging bioacoustic technologies to model for Yellow Rail occupancy.	114	Thursday/Friday
Mélotte, G.	Sound production in piranhas and relatives: comparisons between species	1	Monday/Tuesday
Meyer, J.	Speaking and singing with whistles around the world: speech and music in a simple narrow frequency band	149	Thursday/Friday
Mishima, Y.	PS1 call is determined as an affiliative contact call in captive belugas (<i>Delphinapterus leucas</i>)	75	Monday/Tuesday
Montealegre-Z, F.	Song quality and sound-generator asymmetry in bushcrickets	33	Monday/Tuesday
Montealegre-Z, F.	Biophysics of a pronotal Helmholtz resonator enhancing sound radiation in a neotropical bushcricket	37	Monday/Tuesday
Montes-Medina, A.C.	Functional Diversity in the Vocal Repertoire of the Lilac-crowned Parrot	63	Monday/Tuesday
Moskalenko, V.	Song types are genetically determined in birds with the single song type	96	Thursday/Friday
Motes Rodrigo, A.	Testing the nutritional stress hypothesis and learning capacity in pied flycatchers.	84	Thursday/Friday
Njoroge, A.W.	Acoustic Characteristics of <i>Prostephanus truncatus</i> (Horn) (<i>Coleoptera: Bostrichidae</i>) and <i>Sitophilus zeamais</i> (Motschulsky) (<i>Coleoptera: Curculionidae</i>)	31	Monday/Tuesday
Nolan, H.	Dingo communication	24	Monday/Tuesday
Noriega Romero Vargas, M.F.	Bigrams in Sequences of Pilot Whale Calls	151	Thursday/Friday
Osiejuk, T.	Soft song use in the presence of predator and during rival's intrusions in the Ortolan Bunting (<i>Emberiza hortulana</i>)	65	Monday/Tuesday
Oswald, J.	Geographic variation in delphinid whistles - implications for classifier development	124	Thursday/Friday
Padilla de la Torre, M.	Vocal expression of emotion in cattle	67	Monday/Tuesday
Palhares, C.O.M.	Description of the vocalization of <i>Melanopareia torquata bitorquata</i> (D'orbigny & Lafresnaye, 1837) in Mato Grosso, Brazil	154	Thursday/Friday
Parks, S.	Description of the ontogeny of acoustic communication behavior of North Atlantic right whales	88	Thursday/Friday
Penna, M.	Communication amidst biotic and abiotic interference in frogs of the austral temperate forest	47	Monday/Tuesday
Pereira Chaves, P.A.	Development of the inner ear morphology and auditory sensitivity for social acoustic communication in the Lusitanian toadfish	2	Monday/Tuesday
Petruskova, T.	Song convergence and aggressive interactions of two closely related songbird species in their contact zone: the case of Nightingales (<i>Luscinia spp.</i>)	28	Monday/Tuesday

Popova, D.	Ontogenesis of vocalization in several owl species (Strigiformes)	99	Thursday/Friday
Porteš, M.	Who is who? Acoustic monitoring of migratory passerines with complex and simple song as a tool for individual recognition	13	Monday/Tuesday
Prior, N.	Acoustic behavior in paired, breeding and non-breeding condition zebra finches	140	Thursday/Friday
Ptacek, L.	Improving the Automatic Bird Individual Identification Method by Parametrization Data Merging	137	Thursday/Friday
Quispe, R.	Seasonal and Daily Timing of Dawn Chorus in an Equatorial Songbird	22	Monday/Tuesday
Riebel, K.	How 'crystallised' is crystallised birdsong? Changes in singing over time in adult male zebra finches	100	Thursday/Friday
Rivera-Gutierrez, H.F.	Does song-learning play a role in acoustic adaptation to urban environments?	82	Thursday/Friday
Romero-Vivas, E.	Spectrogram differences approach for extracting fundamental frequency variation of dolphin whistles	135	Thursday/Friday
Rosa, F.	Looking for number of degrees of freedom at Orcinus orca calls for the design of a classifier	115	Thursday/Friday
Ruiz, T.	Software-aided identification of Neotropical bat calls: an active learning approach	120	Thursday/Friday
Sarria-S., F.A.	Loud extreme ultrasonic frequencies produced by a small generator	131	Thursday/Friday
Schneiderová, I.	Species determination of captive lesser galagos (<i>Galago spp.</i>) integrating molecular-genetic and bioacoustic data	130	Thursday/Friday
Schneiderová, I.	Differences in alarm calls of juvenile and adult European ground squirrels: findings from a semi-natural enclosure	64	Monday/Tuesday
Schoeppler, D.	Non-paradoxical Doppler shift compensation in <i>Rhinolophus paradoxolophus</i>	12	Monday/Tuesday
Schulz-Mirbach T.	Diversity in swim bladder morphology affects hearing in cichlid fishes	8	Monday/Tuesday
Seltmann, S.	Influence of sleep on song-related neuronal activity in RA - what role does Melatonin play?	5	Monday/Tuesday
Sibiryakova, O.	Acoustic variation in Siberian wapiti <i>Cervus elaphus sibiricus</i> : effects of sex and age	86	Thursday/Friday
Simon, R.	Driverless vehicle guidance by using bio-inspired sonar reflectors	119	Thursday/Friday
Singh, Y.	Vocalization a passive indicator of developmental stages of dairy animals	89	Thursday/Friday
Singh, Y.	Bioacoustic sensing an authentic descriptor of individual's identity	113	Thursday/Friday
Souriau, A.	Asymmetrical song convergence in two hybridizing nightingales: The mystery of "doublespeaking" males	107	Thursday/Friday
Sprau, P.	Plasticity or consistency? Individual differences in territorial defence along urban gradients in Great tits (<i>Parus major</i>)	43	Monday/Tuesday
Stepien, A.E.	Syllable-specific rules in the microstructure of birdsong	152	Thursday/Friday
Stowell, D.	From raw audio to songbird communication networks: fully automating the analysis	116	Thursday/Friday
Sueur, J.	Ecoacoustics: echoes from a new discipline	36	Monday/Tuesday
Szymanski, P.	Vocal communication behaviour as an indicator of changes in bird populations: a case study of farmland species	51	Monday/Tuesday
Tanttu, J.T.	Time-frequency analysis of the Marvellous Spatuletail (<i>Loddigesia mirabilis</i>) vocalizations	25	Monday/Tuesday
Thomsen, H.	Individual variation and vocal matching by imitation in peach-fronted conures (<i>Aratinga aurea</i>)	106	Thursday/Friday
Tipp, C.	Archiving the Sounds on Life on Earth	134	Thursday/Friday

Ueno, A.S.O.	Barking in capybaras: more than just an alarm call	74	Monday/Tuesday
Ulloa, J.S.	Temporal and spatial dynamics of a tropical soundmark: the song of the Screaming piha <i>Lipaugus vociferans</i>	20	Monday/Tuesday
v. Merten, S.	The song of wild mice – acoustic divergence in natural populations of mice (<i>Mus sp.</i>)	153	Thursday/Friday
van Boheemen, J.S.	Simple song doesn't mean low variability - individual variation in the Yellowhammer vocalization	81	Thursday/Friday
Vellema, M.	Prior singing experiences accelerate subsequent development of vocal skills	98	Thursday/Friday
Villain, A.	Behavioural changes in response to background noise sign the importance of intra-pair communication at the nest in a songbird.	141	Thursday/Friday
Vokurkova, J.	Seasonality in singing activity of bird communities along elevational gradient of Mount Cameroon	29	Monday/Tuesday
Zagkle, E.	To buzz or not to buzz? Situation-dependent behavioural flexibility in bat biosonar during object approach	14	Monday/Tuesday
Zaytseva, A.	Estimating discomfort in a fat-tailed gerbil by ultrasonic joint-calls	66	Monday/Tuesday
Zollinger, S.A.	Great tits stay on pitch even as vocal amplitudes and background noise levels increase	11	Monday/Tuesday
Zsebők, S.	What does the hierarchical analysis of quantitative and qualitative song traits tell us about signal design and reliability?	19	Monday/Tuesday
